

## REPUBLICANS WILL RETAIN SENATE, HOUSE MAJORITIES, THOROUGH ANALYSIS SHOWS

BY LOUIS SEIBOLD  
(EXCLUSIVE DISPATCH)

NEW YORK, Nov. 5.—A thorough analysis of the thirty-two states in which Senatorial and Congressional elections are to be held Tuesday indicates that the Republicans will retain a good working majority in the Senate, but that the G.O.P. majority in the House may be reduced.

A survey and analysis of the conditions in each State, based on the most definite information obtainable and prospects of each party, follows:

**Alabama:** Ten Democrats will be sent to the House without opposition as there is no State of Senatorial contest.

**Arizona:** Senator Ashurst (Democrat) will be re-elected, and Carl Hayden, Democrat, returned.

**Arkansas:** Seven Democrats will be sent to the House without opposition.

**California:** Senator Hiram Johnson will return to the Senate by a majority exceeding 16,000. The Democrats will probably gain one seat in the House. This will give the Democrats three seats and the Republicans eight.

**Colorado:** Three Republicans and one Democrat will be elected in the House. There are no other contests.

**Connecticut:** The Republicans appear reasonably certain to elect the State ticket headed by Templeton and re-elect Senator McLean. The normal Republican majority, however, will be greatly reduced. Three of the five Congressional districts look to be safely Republican at this time, with the other two in doubt. Congressmen Freeman, Merritt and Glynn seem certain of re-election, while Congressman Foss and Tillson are being vigorously opposed, though the Republicans are confident of pulling them through. The tariff has been the chief issue of the campaign. The wet and dry issue does not figure because all of the candidates are wet.

**Delaware:** One of the most vicious battles ever staged in Delaware will be fought out between Senator Dupont, Republican, and Thomas F. Bayard, Democrat. Division in the Republican ranks and the industrial depression somewhat injured Dupont's chances, though his managers feel confident he will pull through. Bayard is a former Congressman and Senator of the same name and Secretary of State of the first Cleveland Cabinet. His Democratic stand a good chance of capturing the Delaware seat in the House.

**Delaware Fight Hot**

Delaware: One of the most vicious battles ever staged in Delaware will be fought out between Senator Dupont, Republican, and Thomas F. Bayard, Democrat. Division in the Republican ranks and the industrial depression somewhat injured Dupont's chances, though his managers feel confident he will pull through. Bayard is a former Congressman and Senator of the same name and Secretary of State of the first Cleveland Cabinet. His Democratic stand a good chance of capturing the Delaware seat in the House.

**Florida:** Park Trammell, Democrat, is unsupported for the Senate seat. Four Democrats will be sent to the House.

**Georgia:** Judge Walter F. George, Democrat, will be sent to the Senate to succeed the late Thomas E. Watson. Mrs. Felton, who was named to fill the vacancy caused by Senator Watson's death until the election, was not given an opportunity to qualify, since Congress will not be in session before the election. The twelve District of Columbia House Democrats. The Republicans made no nominations.

**Idaho:** With two Republicans elected to the Senate, the real fight in the State election has been over the direct primary.

**Illinois:** There is no Senatorial contest. The Democrats will gain at least two, and perhaps three, seats in the House, making the new delegation three Democrats and twenty-two Republicans.

**Indiana:** Albert J. Beveridge, Republican, will defeat Samuel M. Ralston, Democrat, by a substantial majority, though the managers of the latter claim that opposition to the Republican administration gives him a good chance to win.

**Iowa:** The Democrats will gain five seats in the House while the Republicans will hold onto eight. The Democrats are a former Congressman and Senator of the same name and Secretary of State of the first Cleveland Cabinet. His Democratic stand a good chance of capturing the Delaware seat in the House.

**Kansas:** There is no Senatorial contest. The Democrats will likely capture one seat in the House, making the delegation seven Republicans and one Democrat.

**Kentucky:** There is no Senatorial contest. The Democrats will gain one seat in the House and the Republicans will stand nine.

**Louisiana:** No Senatorial election. Eight Democrats will be sent to the House.

**Maine:** Elections held on September 11 when all the Republican candidates, including Senator Hale and four members of Congress, were chosen.

**Maryland:** One of the most spirited Senate fights in the country has been fought by Senator Joseph Francis, Republican, and William Cabell Bruce, Democrat.

**Massachusetts:** The Democratic managers privately concede the re-election of Henry Cabot Lodge over Col. William S. Gaston, Democratic opponent, and there appears to be justification for the Republican claim that the State ticket headed by Gov. Cox will receive a substantial majority over Mayor Fitzgerald of Boston.

**Minnesota:** Senator Kellogg looks to be safe despite the tremendous support worked up for Hendrik Shipstead, the extreme radical farmer-labor candidate. There is a question but that the spread of the radical wave from Iowa and the Dakotas into Minnesota caused great anxiety to the Republican leaders of the Senate. Recently there appears to be a decided change of sentiment which favors Kellogg. Anna D. Olson, the Democratic nominee, will run in the contest despite the fact that William J. Bryan stumped the State for her and urged her election.

**Mississippi:** Hubert D. Stephens, Democrat, will be elected Senator against J. R. Cook, Republican, to succeed John Sharpe Williams. A delegation of eight Democrats will be sent to the House. Republicans made no nominations for that body.

**Missouri:** Democratic Senator James A. Reed is considered to have a very good chance for re-election over R. R. Brewster. Reed won the nomination of his party after a hard fight against the open-primary contest and will do so on Tuesday because of his pronounced opposition to the Eighteenth Amendment and Volstead Act. Women organizations of both parties are fighting Reed, because

**Montana:** Senator Kellogg looks to be safe despite the tremendous support worked up for Hendrik Shipstead, the extreme radical farmer-labor candidate. There is a question but that the spread of the radical wave from Iowa and the Dakotas into Minnesota caused great anxiety to the Republican leaders of the Senate. Recently there appears to be a decided change of sentiment which favors Kellogg. Anna D. Olson, the Democratic nominee, will run in the contest despite the fact that William J. Bryan stumped the State for her and urged her election.

**Nebraska:** Senator Kellogg looks to be safe despite the tremendous support worked up for Hendrik Shipstead, the extreme radical farmer-labor candidate. There is a question but that the spread of the radical wave from Iowa and the Dakotas into Minnesota caused great anxiety to the Republican leaders of the Senate. Recently there appears to be a decided change of sentiment which favors Kellogg. Anna D. Olson, the Democratic nominee, will run in the contest despite the fact that William J. Bryan stumped the State for her and urged her election.

**Nevada:** Senator Key Pittman, Democrat, will be re-elected by a substantial majority, though the managers of the latter claim that opposition to the Republican administration gives him a good chance to win.

**New Hampshire:** No Senatorial contest. The Democrats will re-elect both members to Congress.

**New Jersey:** Contact between Senator Frelinghuysen, Republican, and Gov. Edwards, Democrat, seems to be running in favor of latter. Republicans' confidence is due to belief that the managers of the latter claim that opposition to the Republican administration gives him a good chance to win.

**New Mexico:** Senator Jones, Democrat, is expected to win re-election over Stephen B. Davis, Jr., Republican, though the latter predicts a surprise.

**New York:** Fight for the Senate seat seems to be quite close. As a result of the contest between Gov. Miller and former Gov. "Al" Smith to head the Democratic ticket, the election of O'Connor over Frasier is being urged by the Republicans. The Democrats are expected to pick up two or three more.

**North Carolina:** No Senatorial election. Nine and probably ten Democrats will be elected to Congress.

**North Dakota:** The Senatorial contest between Lynn J. Frasier, radical Nonpartisan League Republican candidate, who beat Senator McCumber and F. J. O'Connor, Democratic nominee, will be close. The election of O'Connor over Frasier is being urged by the Republicans. The Democrats are expected to pick up two or three more.

**Oklahoma:** No Senatorial contest. The Democrats will gain at least three seats in the House.

**Ohio:** Senator Allen Pomerene, Democrat, looks like the winner over Representative Sinson D. Republican, who has five contests will be close. Of the twenty-two seats in the House now held by the Republicans, the Democrats are expected to pick up two or three more.

**Oregon:** No Senatorial contest. The Republicans are expected to elect their three candidates for the House.

**Pennsylvania:** The most interesting contest in Pennsylvania will be over the State ticket. Clifford Pinchot, the old time Bull Moose, won the Republican nomination over what was left of the old Progressive machine on which he declared war. The chances are that, depending on the habits of Pennsylvania, the Democrats will give Pinchot enough of a majority to win safely. Both Senators Pepper and Reed will be returned by a large majority. The Democrats are conducting

**Rhode Island:** The fight for the Senate between Senator Gerry and Former Gov. Beekman, Republican, will be close with the chances favoring Gov. Beekman. South Carolina: No Senatorial election. The Democrats will elect eight members to Congress.

**South Dakota:** No Senatorial election. The Republicans will elect two and possibly three candidates for Congress.

**Tennessee:** Senator Beckley, Democrat, will be re-elected, and the Democrats will gain three seats in the lower House.

**Texas:** The Senatorial contest between Senator Brannan and Governor Clegg, Republican, will be close with the chances favoring Gov. Clegg. The feeling against the K. K. K. in the State is growing so rapidly that the Democrats have gone over to Clegg and the Independents are supporting him. The Republicans will probably elect both their candidates for Congress.

**Vermont:** Frank L. Granger, Republican, will be elected Senator, and both candidates of the same party sent to the House.

**Virginia:** Senator Swanson, Democrat, will be re-elected by a large majority, and the House delegation will consist of nine Democrats and one Republican.

**Washington:** Senator Ponder, Republican, will be elected by a reduced majority. The Republicans will elect their five candidates to the House.

**West Virginia:** Senator Sutherland, Republican, will win after a hard fight by a narrow margin. The Democrats will gain two seats in the House, so that the delegation will stand four Republicans and two Democrats.

**Wisconsin:** Senator La Follette will be re-elected by a very large majority, and the House delegation will consist of nine Democrats and one Republican.

**Wyoming:** The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

## HISTORIC BELL REGAINS VOICE

Gong in Palace Grounds at Berlin Repaired; to Ring Again

(Special Feature Correspondence.)  
BERLIN, Oct. 5.—The huge bell in the cathedral tower in the former Imperial Palace grounds, which cracked while tolling the death of the former Emperor, will ring again after a year of silence. Like America's Liberty Bell, it went mute because of a rent sustained while commemorating a historical event.

It was estimated that the cost of removing the bell to Alton, or Lobos, where Germany's only recasting works are located, would be prohibitive. Further, sentiment precluded installing a new bell for one which originally graced the Wilhelmsplatz.

Consequently a first undertaking to repair it in its own tower.

of its attitude toward the League of Nations and his opposition to the League of Nations, the latter party admit the fight will be close with the chances favoring Reed. The Democrats will gain eight seats in the House, because of discontent among the farmers over low prices and high taxation for which they held the Republicans responsible. The indications are that the Democrats will carry the Third, Seventh, Ninth, Tenth, Twelfth, Fifteenth and Sixteenth Districts. The Democrats will likely win the Senatorial seat.

**Montana:** Charles W. Riddick will likely win the Senatorial seat over Burton E. Wheeler, Democratic nominee, which will be a Republican win. The Democrats will likely win the Senatorial seat.

**Nebraska:** Senator Kellogg looks to be safe despite the tremendous support worked up for Hendrik Shipstead, the extreme radical farmer-labor candidate. There is a question but that the spread of the radical wave from Iowa and the Dakotas into Minnesota caused great anxiety to the Republican leaders of the Senate. Recently there appears to be a decided change of sentiment which favors Kellogg. Anna D. Olson, the Democratic nominee, will run in the contest despite the fact that William J. Bryan stumped the State for her and urged her election.

**Nevada:** Senator Key Pittman, Democrat, will be re-elected by a substantial majority, though the managers of the latter claim that opposition to the Republican administration gives him a good chance to win.

**New Hampshire:** No Senatorial contest. The Democrats will re-elect both members to Congress.

**New Jersey:** Contact between Senator Frelinghuysen, Republican, and Gov. Edwards, Democrat, seems to be running in favor of latter. Republicans' confidence is due to belief that the managers of the latter claim that opposition to the Republican administration gives him a good chance to win.

**New Mexico:** Senator Jones, Democrat, is expected to win re-election over Stephen B. Davis, Jr., Republican, though the latter predicts a surprise.

**New York:** Fight for the Senate seat seems to be quite close. As a result of the contest between Gov. Miller and former Gov. "Al" Smith to head the Democratic ticket, the election of O'Connor over Frasier is being urged by the Republicans. The Democrats are expected to pick up two or three more.

**North Carolina:** No Senatorial election. Nine and probably ten Democrats will be elected to Congress.

**North Dakota:** The Senatorial contest between Lynn J. Frasier, radical Nonpartisan League Republican candidate, who beat Senator McCumber and F. J. O'Connor, Democratic nominee, will be close. The election of O'Connor over Frasier is being urged by the Republicans. The Democrats are expected to pick up two or three more.

**Oklahoma:** No Senatorial contest. The Democrats will gain at least three seats in the House.

**Ohio:** Senator Allen Pomerene, Democrat, looks like the winner over Representative Sinson D. Republican, who has five contests will be close. Of the twenty-two seats in the House now held by the Republicans, the Democrats are expected to pick up two or three more.

**Matthew:** The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

## G.O.P. TO HOLD CONGRESS GRIP

## G.O.P. TO HOLD CONGRESS GRIP

(Continued from First Page)

Congressional committee, will defeat Senator Pomerene, the incumbent, a Democrat, by a slight majority. Pomerene has made a personal fight on his record as a Senator and will get a very large vote. He is opposed by many of the labor leaders and will also be opposed by most of the drive in Ohio.

In Indiana all concede that former Senator Beveridge will defeat former Governor Ralston for the seat now held in the Senate by Harry New. Opposition to former Senator Beveridge because of his affiliation with the Bull Moose movement will cost him some votes and the opposition of some of the old time political leaders in the State, but cannot prevent his election.

In Missouri, Jim Reed, foe of Wilson and opponent of the League of Nations, appears to be a certain winner in the race for Senator although he has the opposition of many women because of his wretched and his hostility to suffrage and other issues which the women voters advocate.

In Iowa despite Republican opposition, Smith Brockhart will be elected to the Senate to succeed Senator Kenyon, who was appointed to the Federal bench. The term, however, is only for two years and Brockhart, who is a wild radical, has promised the impossible on every issue. In the Senate he will be unable to make good his promises and cannot on that record succeed to the full term at the end of two years.

In Maryland, Senator Francis, Republican, is slated for an overwhelming defeat because of his radicalism and Bolshevik tendencies. Many Republicans are supporting his opponent, Bruce, who has behind him all the factions of the strong and virile Democratic party.

In Rhode Island, former Governor Beekman will certainly defeat Peter Good Gerry, the Democratic incumbent. Both men are millionaires, but all the information indicates the election of Beekman.

Today's advices from Minnesota indicated a concentration of all conservative voices in favor of the Republican.

REPUBLICANS TO WIN  
Vermont: Frank L. Granger, Republican, will be elected Senator, and both candidates of the same party sent to the House.

Virginia: Senator Swanson, Democrat, will be re-elected by a large majority, and the House delegation will consist of nine Democrats and one Republican.

Washington: Senator Ponder, Republican, will be elected by a reduced majority. The Republicans will elect their five candidates to the House.

West Virginia: Senator Sutherland, Republican, will win after a hard fight by a narrow margin. The Democrats will gain two seats in the House, so that the delegation will stand four Republicans and two Democrats.

Wisconsin: Senator La Follette will be re-elected by a very large majority, and the House delegation will consist of nine Democrats and one Republican.

Wyoming: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Yosemite: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Zion: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Abraham: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Isaac: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Benjamin: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Samuel: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Joseph: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Matthew: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Abraham: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Isaac: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Benjamin: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Samuel: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Joseph: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Matthew: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Abraham: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Isaac: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Benjamin: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Samuel: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Joseph: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Matthew: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Abraham: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Isaac: The contest for the Senate between Senator Francis and Governor Henry, Democrat, will be close. The Democrats will elect one member to Congress.

Naming New Caliph Fraught  
With Danger

Will Challenge Angora's  
Right to Choose

Britain Secretly Pleased  
With Situation

BY NORMAN W. BAXTER  
(BY CABLE-EXCLUSIVE DISPATCH.)  
(Copyright, 1922, Public Ledger.)

LONDON, Nov. 5.—The deposition of Sultan Mohammed VI as the ruler of Turkey and spiritual head of Islam marks not only one more step in the tradition of might which has surrounded the caliphate since Mohammed established the Muslim faith, but presents a very active possibility that in the Near and Middle East the days of peace, which has just temporarily found root, may be frightened away. There is danger of a serious strife among Mohammedan princes, who will challenge Angora's right to elect a new caliph as spiritual overlord of the faith.

With the news of the abolition of the caliphate, opinion as to the effect of the National assembly's action is varied. The British government professed to have no official view on the subject which it regarded as purely one for the Muslim world to settle. Sir Vivian Dineen, an Indian statesman although of Hindu faith, told your correspondent that it would have a serious reaction in India because the Indian Mohammedans have always associated temporal power with the caliphate while Emir Abdullah, ruler of trans-Jordan, gave evidence of the division of Islamic feeling when he made it plain that his country had never and would not recognize the suzerainty of an Ottoman caliph over his people.

**BRITAIN PLEASED**  
Unofficially, the British government is inclined to view Angora's action with secret satisfaction, because it leaves India extremists in the most untenable position. The cry of Indian radicals has been that their followers must support the Angora government with men and money so that Great Britain would be unable to destroy the spiritual and temporal power of the caliphate. The Westminster Gazette dealing with that point says:

"The reputed anti-Muslim policy of the western powers was never anything but fiction and it is difficult to imagine that it will not receive short shrift now that the Sultan has fallen, not to Great Britain, but to victorious Angora."

It is this transference of the caliphate question—by Angora's action—from one involving European nations to one concerning Muslim countries alone, which looms to the fore now.

**WAS WON BY MIGHT**  
It was might which placed the caliphate in Ottoman hands four centuries ago. The ruling Sultan then, ignorant of the language of the Koran and not a member of the tribe of Korash, was secured by the introduction of the doctrine

of Islam ought to hold supreme spiritual authority. Angora's decision to elect a caliph for purely spiritual duties does not, however, run counter to precedent. Mohammed himself left no successor and the second caliph was named by a vote of those who were the prophet's companions. Succession, by appointment then governed for centuries always in Mohammed's cwa tribe of Korash. The present danger of the Sultan's overlordship is due partly to the fact that rival rulers never recognized the dropping of the parent stick.

Thus it will be seen that while Kemal Pasha has ample precedent for laying more or less violent hands on the person of the Sultan's caliphate, it also opens the way for some other Muslim ruler to put forward claims to exercise the spiritual prerogatives of the Commander of the Faithful. Indeed, the Sultans of Morocco and of the tribe of Korash, have valid claims. The King of Hedjaz has unrivaled genealogical rights, but probably a slight following, due to his connections with the British government.

**AMEER HAS RIGHTS**  
The ruler with the greatest right to demand succession is the Amir of Afghanistan, a most powerful Muslim ruler, and, following the Ottoman argument of might being right regardless of pedigree, would have as much justification in setting up a Caliphate now as the Sultan did in 1517.

There is even the possibility that temporal power may once more

## "DESERT PLAY" UNUSUAL

Legendary Drama Is Staged in Natural Setting at Palm Springs

(EXCLUSIVE DISPATCH)  
PALM SPRINGS, Nov. 5.—Admirably adapted to its setting, which, in its desolate beauty, provided a theater more striking perhaps than any other in the world, "Tabuqua," the desert play, was given for the first time yesterday and today. It is another of the outdoor dramas which are being staged with such effectiveness in California, and the presentation drew thousands of persons from all parts of the Southland, who came to the location chiefly by auto.

The desert play was the thought of William Severance, a lover of the desert who had dreamed of such a production. It was staged under the direction of Garnet Holmes.

The actual theater for the drama was the Dry Creek bed at the mouth of Tabuqua Canyon. With the men sitting behind the great stones of the sand, and as they watched the actors they could see to the play of the thousand shadows that were projected on the other side of the creek bed—the spot that was used for the stage. The distant hills and mountains were veiled in blue and purple mist, and the silence that fell upon the auditors seemed all the more intense because of the unusual natural effect—more intense in fact than that which falls on any audience within theater walls.

The play itself tells of the legend of the desert, and is an annual event. It is the aim of those who sponsor the play to make it bring to the desert the spirit of this setting in his or her work. It is a heretofore poetry of the desert, and by so doing to draw the people into the desert to realize its beauty. It is planned as an annual event.

assert itself in the person of the caliph. The present is not the first time that the head of Islam has been shown in this manner. The Abbasid caliph who ruled Baghdad had no temporal authority from 984 to 1118, when they once more became supreme until 1258. The temporal powers of the Ottoman caliph were even questionable until the days of Abdul Hamid, when he recreated the pan-Islam movement.

**MEXICAN PICTURE**  
**STUDIO PLANNED**  
(EXCLUSIVE DISPATCH.)  
NOGALES (Ariz.), Nov. 5.—Walter Oland, film director and actor, has launched a project for development of a motion-picture colony at Palmito del Verde, a small colony near Mazatlan, Mexico, according to reports reaching here. Oland purchased a large tract of land there several years ago. Erection of a studio is to start soon, it is said.

**AWARD STEEL CONTRACT**  
(EXCLUSIVE DISPATCH.)  
AJO (Ariz.), Nov. 5.—The Wisconsin Bridge and Iron Company has been awarded the contract for steel work at the new concentrator for the Santa Rita copper mine, owned by the Phelps Dodge Company, C. C. Moore, San Francisco, will superintend the plant extension. The concentrator will be finished late in December, it is expected.

## PLAN COURT FOR WORLD COMMERCE

International Chamber to Set Up Trade Tribunal; Local Men on Board

(EXCLUSIVE DISPATCH)  
WASHINGTON, Nov. 5.—Plans have been perfected by the International Chamber of Commerce, the American section of which has headquarters in Washington, for the establishment of a new international court of arbitration for the settlement and adjustment of commercial disputes between different countries.

The new tribunal is the result of several years' study of the problem of international commercial arbitration and will be independent of all agencies established by governments. The administration of the court will be directed from the headquarters of the international chamber at 22 Jean Goujon, Paris. Twenty-seven nations besides the United States will name groups of representative business men to serve on the court.

Owen D. Young, chairman of the board of the General Electric Company, has agreed to serve as chairman of the American group on the new court. The other American members will be Newton D. Baker, former Secretary of War; President Irving T. Bush, of the Bush Terminal Company, New York; R. Goodwin Frost, president of the People's National Bank of Charleston, S. C.; President Henry M. Robinson, of the First National Bank, Los Angeles; Frederick S. Boyden, president of the Boston Chamber of Commerce; President Thomas E. Wilson of Wilson & Co., Chicago; Edgar Carolan of the International General Electric Company, Paris, and M. J. Sanders, manager of the International Mercantile Marine, New Orleans.

**ENTIRE REPUBLICAN**  
**TICKET SAID WINNER**  
(BY A. P. NORT WIRE.)  
SAN FRANCISCO, Nov. 5.—The Republican ticket in California will be elected at the general election Tuesday "from top to bottom," Albert Boynton, chairman of the Republican State Committee predicted today after receiving reports from prominent party workers throughout the State.

"I have been all over the State and I do not hesitate to predict that the party's victory on Tuesday will be an overwhelming one," said Lieut.-Gov. Young, in a reply to headquarters.

Senator Johnson and Friend W. Richardson will win by "splendid majorities," Young added.

## The Lawyer's Bill

Every man is presumed to know the law.

The Lawyers' Bill, Proposition No. 24 on the ballot, prohibits the well-informed banker, realtor, accountant, architect and other business man from making a practice of giving to his customers and friends the benefit of his knowledge of the particular laws known to him and which relate to his business or calling.

It is dangerous to be ignorant of the law, yet the Lawyers' Bill would make it a crime in many cases for the business man to communicate his knowledge. If the Lawyers' Bill does not become a law, the inquiring public will continue to possess the right to choose their own advisers. If one desires or needs to employ an attorney he may do so. If he merely wishes information in connection with his business transactions, he can go to the man he trusts and whom he believes to be competent to advise him properly.

If the Lawyers' Bill becomes effective the business man will be muzzled and the public will be compelled to pay cash for service which is now cheerfully and usually freely given by bankers, real estate men and others. The Bill makes it a crime punishable by imprisonment or a fine, or both, for one who is not a licensed attorney to give advice unless he prepares an "ordinary business agreement."

In the transaction of the daily affairs of men many simple questions of law necessarily arise and banks and trust companies for many years have made a practice of helping their customers with advice and with forms of ordinary legal instruments used in daily business. Many customers ask banks to render this service because it promotes the safe, economical and expeditious conduct of business.

It is the purpose of the Lawyers' Bill to make a crime of this simple service and the result of the law will be to place a burden of useless expense on the public.

The interests of the public will be best served by the defeat of this act at the forthcoming election. This result can be accomplished by voting "No" on Proposition No. 24.

COVINA BOASTS  
TEN CHURCHESOnly One Theater in City of  
Two ThousandMore Men Than Women  
Seen at ServicesFamily Worship Outstanding  
Feature

BY ALMA WHITTAKER

Yesterday I visited a small-town church—the First Christian Church of Covina. This little town has a bare 2000 population, but it supports ten churches. Any one of them would be indignant at the notion that it was superfluous.

Not having yet discovered the yawning empty churches and the discouraged pastors in the big city—which we have always been taught to believe is so much inherently wicker than the country—it is unreasonable to suppose that any of these Covina churches are empty either. And somebody certainly supports them.

The Christian Church had quite a recently held service yesterday, and I was told it was usually much larger. Its pastor, the Rev. R. W. Gentry, is a decidedly virile person. And evidently a man's man. For not only was there a good quota of men at the regular service, but this pastor has organized a Bible class for men with a membership of 200 and an average attendance of 100 for fifty-four recent consecutive Sundays, made up of the prominent business men of the city.

RECORD ATTENDANCE

These classes are conducted in the local theater, embracing every denomination, and occur prior to the Sunday morning service. Hence one may accept the claim that "we are the largest men's Bible class in the United States in proportion to population." Which means that at least 15 per cent of the men of Covina are earnest Bible students, over and above the many who merely make their regular Sunday observance at the church.

The service of the Christian Church is informal and replete with simplicity—extemporaneous prayer, hymns sung by the whole congregation, the dispensation of the Lord's Supper to all, seated informally in their pews, administered by the elders and deacons, following the blessing asked by the two elder brothers, Blair and Duddar.

No new fancy tunes for the hymns—just the old-fashioned ones that everybody knows. A choir devoid of vestments, made up of both sexes, and the music furnished by a good piano.

ADHERES TO CREED

The pastor's sermon dealt with the missionary spirit, upon that admonition taken from St. Mark xvi by which we are exhorted to go forth and preach the gospel throughout the world. And since this little church entirely supports two missionaries in foreign fields, it can be credited with living faithfully up to this creed.

But the pastor told his flock that was not sufficient. That a very personal and nearer home missionary duty devolves upon them all. They must themselves be missionaries for God in every department of their daily lives. The sort of missionary work that entails personal love, personal labor, personal Christianity, personal example, and intimate unsharable human contact for Jesus' sake.

And while he spoke his missionary message, a baby lifted up its small voice, a little girl of 10 or so rolled and unrolled a pretty silk handkerchief, and a stalwart young man placed his arm protectively around his mother's shoulders. A deacon thoughtfully adjusted the windows and shades.

Several people came in late, and altogether the occasion was thoroughly homey and informal. It was worshipping God in familia, that church was just a natural part of their daily lives. One just knew that the fifty little boys would grow up to be deacons, the little girls to be choir singers, and the baby perhaps to be the teacher of the women's Bible class.

MEN EXCITED WOMEN

The exquisite flowers that decked the altar—its only embellishment—were brought and arranged in homely earthenware vases by Mrs. M. Newman, the present leader of the Women's Bible Class (which, by the way, is not half as large and largely attended as the men's). It is so often the women whose enthusiasm more largely

supports churches, but here was a unique condition. In the church's little publication, called the Class Booster, one reads copious data upon the male activities—but never a single word appertaining to the women. Behold this little publication, entirely supported by masculine business advertising, by theater advertisement (only one theater but ten churches mark you), garage, grocery, doctor's and bank advertisements, representing the various businesses in which these Bible-class men are interested.

But all the same I don't believe the Covina Christian Church agrees with Ambassador Harvey that women have no souls and that they are exempt from the Ten Commandments. Pastor Gentry has merely concentrated on the responsibility of the men—and this is perhaps a hearty, healthy sign of the times. There have been occasions when mother and daughter were expected to furnish most of the religious activity for the whole family!

BIBLE IS LURE

Nor does the pastor attract these men with spicy, flamboyant, jaw-reviling modern sermons, political exhortations, crime psychology or picture-star preachers. He teaches the Bible, homely religious duty, the Sermon on the Mount—God's Word. Which is the reason why this little remote Covina church has had the distinction of front-page editorial in The Look Out, a Cincinnati publication.

And don't forget Covina's ten churches still survive two devastating frosts in four years—a little town so vitally dependent upon the orange crop. Not a church gone out of business—although the orange crop last year was in many cases a dead loss. Outward and material evidence of an inward and spiritual grace.

REFUSE TO  
SELL COAL;  
RAID CARS

Irate Citizens Take Matters in Own Hands in Mining Community

(EXCLUSIVE DISPATCH.)

SCRANTON (Pa.) Nov. 5.—Angered by the failure of the Federal State Fuel Commission to furnish them coal, more than 2000 citizens of Olyphant, near here, marched to the yards of the Delaware and Hudson Railroad Company today and confiscated four cars of coal.

The fuel was loaded in automobile trucks and wagons and hauled to the nine churches and ten public schools in the borough.

The schools have been closed for two weeks because the coal companies have refused to sell coal in Olyphant borough, although thousands of tons are mined there daily. The Olyphant citizens held a midnight meeting Saturday with Burgess P. B. Dempsey, members of the Council, and the School Board. It was decided that the Burgess should exercise his police power and confiscate sufficient coal to supply the schools and churches.

Shortly after 8 a.m. the fire going in Olyphant was blown. This was the signal for the seizure of the coal. Fire trucks loaded with firemen roared through the streets and got the citizens up. Scores of other vehicles, including automobile trucks, wagons and push carts, joined the gathering in front of the borough building. Hundreds of men and boys, carrying shovels, formed in the line. Burgess Dempsey, the Councilmen and school directors, all with shovels on their shoulders, led the caravan on the half-mile jaunt to the railroad yards. Hundreds of women lining the streets, yelled words of encouragement to the marchers.

"Get us coal for our schools and churches," "Fight for fuel if you have to—these were some of the cries of the women.

Pomona Youth Gives Life to Save His Gun

(EXCLUSIVE DISPATCH.)

RIVERSIDE, Nov. 5.—Bernard Carver, aged 18 years of Pomona, was drowned in Mockingbird Lake this morning, as a result of an attempt to swim ashore with a gun which he had recovered from a sinking boat.

In company with two other young men, Carver had been hunting in the vicinity of the lake. One of the boys shot a flying duck, which fell into the lake and the party secured an old flat-bottomed boat and rowed out after the bird. About 100 yards from shore the boat began to fill with water and the frightened hunters leaped into the lake and started to swim back to land.

Remembering that he had left his gun in the boat, Carver turned, swam back to the sinking craft, recovered the sporting weapon and again started for shore. He dropped the gun but, with dogged perseverance, made a dive for it. He never emerged from the water. Officers from Riverside dragged the lake this afternoon and recovered the body, Coroner C. E. Dickson will conduct an inquest over the body to-morrow.

ENVER PASHA DEAD,  
PARIS PAPER SAYS

(BY CABLE AND ASSOCIATED PRESS.)

PARIS, Nov. 5.—L'Humanite states this morning that it is positive Enver Pasha, former Turkish Minister of War, was killed August 4 when contingents of the Red army surrounded Mohammedan insurgents near Bataklik. The insurgents were annihilated, according to the newspaper, and among the bodies was found that of Enver Pasha in a British uniform, the pockets of which contained letters to his wife and son, and a number of seals.

# Men and Women of California Do Your Duty at the Polls!

CHIEF ENGINEER  
WILLIAM MULHOLLAND of  
the Los Angeles Water Department,  
Builder of the Los Angeles  
Aqueduct, says:

"I am unreservedly for the California Water and Power Act. It is practical and workable. It will not lay upon us a burden of taxation. It will stop the alienation from the people of their precious heritage in the water power sources, and that is the chief reason why I shall vote for it."

CHIEF ENGINEER  
EZRA F. SCATTERGOOD, of  
the Los Angeles Light and Power  
Bureau, says:

"The Water and Power Act will do for California what Municipal Power has done for Los Angeles—cause a wonderful growth in industry—and greatly benefit agriculture. It will give us the prosperous surrounding territory without which our growth must stop."

## To All California Voters:

We, the undersigned, unreservedly indorse the CALIFORNIA WATER AND POWER ACT.

It will provide water and power at cost, and will save for the people of California their heritage in natural resources of inestimable value.

It will prevent destruction by floods, conserve flood waters and promote the fullest utilization of water for irrigation and reclamation of arid lands.

It will save a large portion of the remaining 8,000,000 horsepower of hydroelectric energy from complete monopoly, and will become the effective agency for compelling reasonable rates for the portion now owned and yet to be developed by private corporations.

It will put an end to excessive rates which now place handicaps on agricultural and manufacturing industry and commerce. It will aid and encourage all private initiative except that of monopolizing these master resources.

It will not increase taxes, but by increasing the amount of taxable property will tend strongly to reduce them. The \$500,000,000

is a limit fixed for State investment in projects amply able to bear all costs out of sale of water and power without profits. The bonds will not all be issued at one time, but only in varying amounts from time to time as needed for such self-sustaining projects.

It will not establish a board with excessive powers. Ample safeguards are provided. Every act and record is subject to scrutiny by any citizen. The finance committee, of which three members are elected State officers, are given a potent voice in allotting State credit to feasible local projects. The voters can recall the board. We cannot recall or control the unknown financiers in Wall Street who exploit us through their monopoly and control the press and the policies of the State.

It places in the State Constitution the timely and far-reaching declaration that it is "the policy and purpose of the State to conserve, develop and control the waters of the State for the use and benefit of the people." All of its provisions were prepared with that end in view.

It will enhance the credit of the State by placing profitable assets back of its bonds.

We ask you in the name of our present and future generations to vote YES on No. 19 on the ballot.

## And Many Thousand Others

GIFFORD PINCHOT  
Friend of Theodore Roosevelt,  
Father of Conservation in  
America, and now the Republican  
nominee for Governor of  
Pennsylvania, says:  
"The Water and Power Act  
is the best and most carefully  
drawn conservation measure  
that I have ever examined. This  
is the issue: Water and Power  
at Cost for the People, or Water  
and Power at a Profit for  
the Corporations."

19 WATER AND POWER. Initiative Measure adding Article XIVa to Constitution. Creates board appointed by Governor and subject to recall, chairman receiving fifteen thousand dollars annually, other members twenty dollars per day when acting. Authorizes issuance of bonds not exceeding \$500,000,000. Empowers board to develop and distribute water and electric energy (giving State and political subdivisions certain preferential rights,) do anything convenient therefor, fix rates to meet cost thereof, and retire bonds in fifty years, use State waters and lands, and require reservation of water from appropriation and, when necessary in board's opinion, public lands from sale.

County District Attorney George E. Glover  
Dear Friends:  
This is to call your particular attention  
to the candidacy of GEORGE E. GLOVER  
for Justice of the Peace, Los Angeles Township,  
and to ask you to help elect him.  
JUDGE GLOVER has given faithful serv-  
ice as Justice of the Peace and as Deputy  
District Attorney handling thousands of  
criminal cases. His experience, courtesy,  
patience, fairness and sterling worth as a  
man of character, entitle him to your vote.  
We need such men in public office. I  
shall be glad if you will be sure to vote for  
him on November 7th, and urge others to  
do likewise. Yours truly,  
George E. Glover

PASSENGERS ON  
LINER ROILED

Delay at Bermuda Blamed  
on Flowing Bowl

Officer on Shipping Board  
Boat Drunk, Charge

Quis Launched on Arrival of  
Ship at New York

NEW YORK, Nov. 5.—Heldom  
has a vessel brought such indig-  
nant passengers to this port as  
those arriving today on the steam-  
ship Southern Cross, one of the  
largest of the United States Ship-  
ping Board's fleet, which is given  
over to the Munson Line for oper-  
ation between New York and South  
American ports. Running short of  
fuel oil for some unexplained rea-  
son, after leaving Rio de Janeiro,  
Capt. Bert U. Head was forced to  
put into Bermuda, where the ship  
was held for five days for oil that it  
took twelve hours to put on board.  
And, strange as it may seem,  
some of the passengers blamed  
the captain for the delay, although the  
Shipping Board vessels were sup-  
posed to be barge dry.  
While no liquor was sold on  
board, great quantities were  
brought aboard by passengers.  
OFFICER DRUNK, CHARGE  
Charging that the high officer  
of the ship was under the influ-  
ence of liquor, in the presence of  
passengers, Miss Norville, K.  
Norville of Montgomery, Ala., rep-  
resentative in South America of the  
World's Woman's Christian Tem-  
perance Union, said she was going  
to report the matter to the Mun-  
son Line, the United States Ship-  
ping Board and take up the matter  
with the organization she repre-  
sents at the convention in Phila-  
delphia from November 11 to 15.  
So serious was the situation on  
board the Southern Cross consid-  
ered that J. B. Shady, one of  
the board's vice-presidents, was on  
the dock when the vessel reached  
Hoboken and began an immediate  
investigation.  
Although Mr. Shady, after  
boarding the vessel at Hoboken,  
said he understood the shortage of  
oil was due to salt water becoming  
mixed with the oil, passengers  
maintained that members of the  
crew told them an inexperienced  
assistant engineer had pumped oil  
overboard when told to pump some  
water out of the ballast tanks.  
DRIVING BLAMED  
Clifton A. Barker, a teacher in  
the American Baptist College at  
Rio de Janeiro, said: "If there  
had not been so much drinking  
on board we probably would have  
been here five days earlier."  
Another incident of the voyage  
came to a climax on the pier at  
Hoboken when Miss Norville was  
confronted by Mrs. Gertrude M.  
Shirk, the ship's hostess, who  
charged the temperance worker  
with spreading the report that she  
had been intoxicated on board.  
"I did not say you were intox-  
icated," snapped Miss Norville.  
"I said you had been drinking al-  
coholic liquors. It was another wom-  
an on board who said you were  
drunk. She said you took eight-  
een drinks at one sitting."  
"I had some drinks," answered  
Mrs. Shirk, her face taking on a  
crimson glow. "But I never had  
eighteen at one time. Further-  
more, it was understood when  
I became hostess on this vessel that  
I could drink with the passengers.  
Mr. Munson told me I could."

Shriners Here  
Plan Ball on  
Thanksgiving

Calling on all Nobles of the  
Mystic Shrine to make this the  
banner year in their annual Chris-  
tmas Charity festivities, announce-  
ment has been sent forth by Motley  
H. Flint, chairman of the Shrine  
Christmas relief work, that the  
sixteenth annual Shrine charity  
ball will be held Thanksgiving Eve,  
November 19, in the Ambassador.  
The ball, which is always one of  
the most brilliant events of the  
year, will mark the initial activity  
of the Shriners in their great work  
for dispensing Christmas gifts,  
food, clothing, bedding and abun-  
dant good cheer to thousands of  
poor families who otherwise would  
have no Christmas celebration.  
Following the ball and the gar-  
nering of the annual charity fund  
therefrom, there will be launched  
an extensive program of prepara-  
tions for the big Christmas tree  
festivities and the dispensing of the  
more substantial gifts among the  
poor of the city.

PROMISE FAIR TRIAL  
OF DEFEATED GREEKS

(BY CABLE AND ASSOCIATED PRESS)  
ATHENS, Nov. 5.—The revolu-  
tionary committee has officially in-  
formed the United States govern-  
ment that the Greek political lead-  
ers who are under arrest will be  
given a fair trial.  
Col. Plastiras, leader of the revo-  
lutionists, called on Jefferson Caf-  
fery, American Charge d'Affaires,  
yesterday, and after thanking him  
for America's generous relief  
work, said he wished to dispel  
doubts concerning court-martial  
of the various former civil and  
military leaders charged with re-  
sponsibility for the defeat of Greek  
forces in Asia Minor.  
Critics have been alleging that  
the government was resorting to the  
persecution of political ene-  
mies.

ARIZONA MINE FIRM  
PAYS HEAVY TAXES

(EXCLUSIVE DISPATCH)  
TUSCON, ARIZ., Nov. 5.—Draft  
for \$155,922.22, the largest single  
payment of the first 1922 county  
tax installment, has been received  
by County Treasurer A. J. Menard  
company at Ajo. The payment  
represents 40 per cent of the first  
installment of the Pima county  
tax, and was paid by the company  
four days in advance of the time  
expiration under the law.

DON'T BE DECEIVED!  
By the Lawyers' Plea  
for a Lawyer's Fee

The Lawyer proponents of the Lawyers' Bill are trying to  
mislead the voters into believing the Bill does not prevent  
them from receiving advice on business law and legal ser-  
vices on business problems from bankers and other business  
men—a free service to which they have long been accus-  
tomed.

NOTE THAT THE JUDGES, OVER THEIR SIGNA-  
TURES, DO NOT SAY THIS.

The exact wording of the Bill on the subject is as follows:

"It shall be unlawful for any person not licensed  
as an attorney . . . to make it a business or a prac-  
tice to render or furnish legal advice or services."

THIS MEANS EXACTLY WHAT IT SAYS.

The present practice of real estate  
men, bankers and other business  
men giving advice on business law  
to inquiring customers is to be stop-  
ped, and a LAWYER consulted  
and PAID. This is a service the  
people now ask for and profit by.

The lawyers say the Bill permits the  
drawing of all kinds of business  
agreements and conveyances. But  
the Bill says that it "Shall not pre-  
vent any person from preparing  
ORDINARY business agreements  
and conveyances." Nowhere, how-  
ever, is the word "Ordinary" defined.

NOTE, THE JUDGES IN THEIR  
SIGNED STATEMENT, DO NOT  
ATTEMPT TO DEFINE THE  
WORD "ORDINARY."

The truth is that business men in  
drawing for their customers deeds,  
leases, mortgages, notes, etc., will  
determine AT THEIR PERIL,  
whether these instruments are "Or-  
dinary" or not. The effect must  
be the discontinuance of this service  
by business men and to compel the  
public to hire lawyers to prepare  
these instruments, in cases where  
it is now unnecessary.

This is the penalty: "Any person  
violating any provision hereof is  
guilty of a misdemeanor" punish-  
able by imprisonment in the county  
jail up to six months, or by a fine  
up to \$5,000, or by both.

It is ridiculous to make a crime  
out of a public service.

Similar laws have been forced or  
bluffed through lawyer-controlled  
legislatures in a few other states.

This is the first time the  
people have ever had a  
chance to pass upon the  
question. There is no pub-  
lic demand for it.

The cold truth is the Bill is drawn  
solely to help lawyers get more  
money and force business their  
way.

Look out for it.

KILL IT!

Vote NO on proposition 24.

# A Great Sale of Furniture

## Embracing a Large Part of Our Ten-Floor Stock Below Present Market Value

Think of our low prices that bring people here even from Los Angeles, and then think of them as being reduced so that you can choose from our furniture stock at lower prices than ever!

Naturally such an opportunity will be brief. Make up your mind to take advantage of it without delay, even if you must have the goods delivered later.

Approximately \$500,000  
Stock of Furniture at Prices  
Below Present Market Value

Greatest  
Furniture Sale  
in Our History

This heavy stock of furniture consists of new highly desirable pieces and sets for the various rooms of a modern home. All of it is new in style, coming to us direct from the great Eastern furniture factories.

It is very unusual for us to make such a remarkable offer at this time of year but owing to the immense stock on hand and our desire to make this the greatest month in our history, we offer this large stock at prices below present market value.

### TRUTH ABOUT POWER ACT

(Continued from First Page)

left to a community. No voice in the plans or cost of a project. No right of appeal from the management or the rates fixed by the board. Therefore the right of the referendum is taken from the people.

The people through their Legislature have no check or control over the acts of this board or over the sums of money it may draw from the State treasury, no means to prevent taxation without limit to meet the losses incurred by this political board into whose inexperienced hands we are asked to place \$500,000,000 of our money for them to gamble with.

No definite recall provision is put into the measure. It merely says: "It shall be the duty of the Legislature to provide for a recall." What legislature and when are carefully omitted.

This board will combine within itself all the three functions of government—the legislative, the judicial and the executive—and this is subversive of the foundation principles of our representative form of government and constitutes an autocratic bureaucracy absolutely free from the control of the people.

#### UNNECESSARY, UNWISE, DANGEROUS

The measure is unnecessary because California today is the best-watered, the best-lighted and the best-powered community in the world. As Hoover says, nowhere in the world is electricity as cheap as it is in California. Let well enough alone.

The measure is unwise because its financial policy is not sound. It will adversely affect the credit of the State. It contains no definite plan for development or service. It specifies no projects.

The measure is dangerous because it is openly a communistic plan and provides for the liquidation of basic industries, not confining itself even to water, light and power. It is especially dangerous because it proposes to substitute an autocratic bureaucracy for our representative form of government.

If a majority of the voters of California at next Tuesday's election favor the water and power act, California will put itself in an infinitely worse position than did North Dakota when it went bankrupt following Twain's in his visionary and impracticable schemes, which brought widespread ruin to that commonwealth.

### Diet and Health

By Lulu Hunt Peters, M.D.  
Author of "Diet and Health, with Key to the Calories"

#### ANIMAL LOVERS

Are you an animal lover? Of course you are. All decent minded people are. Of course we are not rabid on the subject. We do not refuse to have animals killed for our food. If we are vegetarians it is because we believe that system of dietetics is healthful. We wear furs to keep us warm, although it is true that animals must suffer in traps. We wear leather contributed by animals on our feet, and perhaps we wear birds on our hats. And some of us like to fish and hunt.

So, of course, as we countenance all of this slaughter of animals for our material comforts—which perhaps we could do without—we are not so one-sided as to believe that an infinitely smaller number of animals shall not lose their lives, if necessary, to protect us from disease and death. And we are grateful that surgery has been made safe, that horrible diseases like child-bed fever, diphtheria, cerebro-spinal meningitis, lock-jaw, hydrophobia, plague and other diseases are under control because of the knowledge we have gained through animal experimentation.

We are fervently hoping that cancer, and infantile paralysis and other diseases that we have little control of now will yield eventually, no ruthless cruelty, and no unnecessary suffering among the animals that are used.

Now that we know authoritatively that animal experimentation has been of great benefit to animals themselves we want more people to know that there is no brutal-

ity, no ruthless cruelty, and no unnecessary suffering among the animals that are used.

We want to know that in all laboratories in which animal experimentation is conducted rules are posted and enforced to minimize the suffering in laboratory animals. Among them are the following:

"Animals in the laboratory shall receive every consideration for bodily comfort; they shall be kindly treated, properly fed, and their surroundings kept in the best possible sanitary condition.

"In any operation likely to cause greater discomfort than that attending anesthesia, the animal shall be first rendered incapable of perceiving pain and shall be maintained in that condition until the operation is ended. Exceptions to this rule will be made by the director alone and then only when anesthesia would defeat the object of the research.

"At the conclusion of the operation the animal shall be killed painlessly.

"Exceptions to this rule will be made only when continuance of the animal's life is necessary to determine the result of the research. In that case, the same aseptic precautions shall be observed during the operation and so far as possible the same care shall be taken to minimize discomforts during the convalescence as in a hospital for the human being."

Tomorrow—The Medical Trust.

"Been to the college football game, eh? Is your son on the team?" "Judging by his looks, I should say the team was on him."—[Boston Transcript.]

### MAKE MONEY MAKE MONEY MAKE MONEY

Make money do that which it has not done heretofore. Make one payment of \$16.48 at age of 35 for \$1000 life insurance and place \$300.00 to your own credit in the Los Angeles Mutual Building and Loan Association and thereby create an estate of \$1300.00 and not another dollar more to be paid by you during life.

In the event of death the Los Angeles Mutual Building and Loan will pay \$300.00 on receipt of death proofs, the life insurance company will pay \$1000.

\$1500 thus invested creates an estate of \$6500. \$3000 thus invested creates an estate of \$13,000. \$6000 thus invested creates an estate of \$26,000. Older and younger ages in same proportion and men and women on equal basis.

This is not so-called investment life insurance but investment plus life insurance and you do not lose your investment fund.

Give us your address and age at nearest birthday and we will give you further information.

Address J. S. MUNSELL, 740 So. Spring St. I want a good organizer who has a little money to go in with me in pushing this proposition.

## TUESDAY'S ELECTION

By reason of our bifurcated government in California elections become progressively more strenuous. We have departed from the strictly representative form of government established by the Federal Constitution and have a State government that is half Republican in form and half Democratic in substance. Direct legislation and legislation through representative assemblies do not function well when united; not only legislative confusion arises, but they produce grotesque abnormalities.

In tomorrow's election there are as many direct legislative measures to be passed upon as there are offices to fill. If only those were permitted to vote on the various initiatives and referendums on the ballot who could explain their purpose we doubt if twenty out of the million and a half electors in the State could qualify to pass judgment on them all.

There will necessarily be a great deal of blind voting, groping in the dark; but whether we approve or disapprove, it is the condition under which the election must be held. The measure to the public welfare lies in the fact that there has been an enormous mass of confusing propaganda distributed as doggers or mailed to the registered voters; and even the genuinely sincere cannot always vote intelligently, because they have not the time nor the means to separate the true from the false.

Chief interest in the selection of candidates centers about the gubernatorial election; for the office to be filled, because of the manifold State activities due to our overcommissioned form of government, is the most important on the ballot. During the last ten years the cost of government in California has mounted until it is now two and one-half times the per capita average of the other American commonwealths.

This tax burden is rendered all the more onerous by reason of the heavy Federal taxation necessary to repay the indebtedness incurred in the late war. The tax is not the less burdensome—both State and Federal—because the greater part of it is indirect in form. F. Bastiat, a noted French economist of the last century, gave an excellent definition for indirect taxation: "It is a scheme to pluck the greatest amount of feathers from the goose with the least amount of squeaking."

The taxpayers of California have submitted to that process until their breasts are about plucked bare. This year Friend W. Richardson, the Republican candidate, led a revolt against the waste and extravagance of the State administration. He won the Republican nomination on a platform pledged to efficiency and economy. He has assured the electors that if they choose him for their Governor he will make economy the keynote of his administration.

Mr. Richardson has served the people for eight years as State Treasurer. He knows where the money goes, and he has pointed out the way to save the State \$115,000,000, a sum equal to the entire cost of State government from 1906 to 1910.

His Democratic opponent, Thomas Lee Woolwine, has not talked economy to the electors, but light wines and beer. On a former hope he has sought to create a fake issue out of what cannot be a legitimate issue in the campaign. For the Governor has no more power to permit the unlimited use of light wines and beer than a private citizen. Neither the State nor the Federal laws give him any discretion in that matter; he poses, not as a wet candidate, but simply as a tepid one. So the issue, from the Democratic point of view, reduces itself to "your country or your bootlegger."

The Times is convinced that the electors of the State is intelligent enough and astute enough not to be misled by so insincere a campaign.

II  
 SOME of the initiative and referendum measures on the ballot are of tremendous importance; others are trivial. If the single tax amendment or the water and power amendment were to carry, the white spot representing Southern California on the industrial map of the country would disappear, like the sun passing into an eclipse. For both these amendments there has been a vast amount of propaganda, generally directed by those who would prosper personally despite the wreck of our general prosperity; just as there are those who would prosper despite the wreck of the Republic.

Under the terms of the Water and Power Act, No. 19 on the State ballot, a super-commission composed of five members would be created and they would be authorized to bond the State for \$500,000,000 for the purpose of going into the light and power business. If this act carries our State debt will be greater than was the national debt in 1914, and we have less than one-thirtieth the taxable wealth of the Federal government.

Los Angeles has been built upon what was once a desert largely by eastern capital. The rapid development of California has been due in a large part to the investment on money earned elsewhere. The Los Angeles Chamber of Commerce has issued a warning that the passage of the initiative to turn elsewhere \$1,000,000,000 that would otherwise be invested here within the next ten years. Why interfere with our own prosperity? Our hydroelectric development in California under existing laws is greater proportionately than that of any other State. It is wise to stop all that in order to give a few public ownership fanatics an opportunity to experiment in the light and power business with other people's money.

A vote against No. 19 is a vote to keep Los Angeles the white spot on the country's industrial map.

A companion bill to No. 19 is No. 29, the single tax amendment. The single-taxers are all for the Water and Power Act, and for the most part, vice versa. The single tax is a scheme to confiscate all private property through taxing the land for its full rental value. We have recently seen private property confiscated in Russia, and we know what follows. The scheme was tried for a brief period in Canada and Australia. It brought about unparalleled business depression and almost depopulated the districts where it was enforced. Grown wiser by experience, the Canadians and Australians abandoned it. But the heads of the single-taxers, like those of most of the Water and Power Act advocates, are so filled with their pet theory that there seems no room for common sense. Big adverse majorities at the polls may convince them of the futility of their Utopias.

Initiative Measures 10 and 11 on the State

## After House Cleaning Comes the Hunting Season

ballot provide for levying taxes on public utilities the same as on those privately owned, and for entrusting the regulation of both public and private utilities to the State Railroad Commission. The Times regards these as sane and reasonable regulations and believes they should be passed. The municipal railways of San Francisco, for instance, were sold to the city for \$1,000,000 a year in State taxes. Now they pay nothing, and that \$1,000,000 must be made up by other communities. This is equally true of some light and power projects in the State.

There is no reasonable argument for exempting public utilities from taxation. They should be made self-supporting, and should collect enough for the service they render to pay their just share of taxation. Until they do this the people cannot judge whether they are self-supporting or not. If all are taxed equal justice is done to every part of the State. Under present conditions someone must make up the taxes they evade.

This principle holds equally true in regard to the regulation of public utilities. All the public service corporations privately owned are now regulated by the State Railroad Commission. They must keep uniform books and submit to a State audit of their accounts. Why should not this rule be made to apply to publicly owned corporations? Why should they be permitted to keep their books and accounts in the public house of no way of knowing whether they are paying proportions? Under present conditions, they can so juggle their accounts that a part of their cost is saddled on the taxpayers without their being aware of it. It is wise to give public boards such opportunity for graft and double dealing? An affirmative vote on Propositions Nos. 10 and 11 will entail no additional cost to the taxpayers, and may save some communities millions of dollars. Favoritism under the law is a very certain way to increase disrespect for the law.

Initiative Amendment No. 27 is purely and frankly an anti-single tax amendment. It provides that the number of signatures necessary to get an amendment relating to the assessment and collection of taxes on the ballot shall be increased from 5 to 15 per cent. The present number of signatures necessary is so small that a coterie of single-taxers get their proposition, carefully camouflaged, on the ballot every two years. Then a campaign of education covering the whole State is necessary to enlighten the voters as to the true meaning of the amendment and prevent its adoption. All those opposed to the single tax should vote for No. 27.

For the guidance of voters The Times published on Sunday a brief summary of all the State, county and municipal measures on the ballot, along with its recommendation as to whether they should be adopted or beaten. While not assuming superior wisdom, virtue or foresight, we have studied all the propositions and given fully and frankly our reasons for favoring or opposing them.

THE THREAT OF THE TURK  
 Not even military experts know to what extent how much real force there is behind the defiance flung in the face of Europe by Ismet Pasha, the Minister of Foreign Affairs of the Ankara Turkish government.

In a speech before the Assembly at Ankara Ismet said:

We have the strongest army in Europe, which will overcome all obstacles that may hinder our aims and, if our independence requires it, our soldiers will continue to fight. They are ready to die for their country.

No European War Office knows just how much of this bluff and how much is fact; and it would be a very dangerous process to find out by practical demonstration. As long as they stay on the Asiatic side of the Bosphorus the Turks would seem to be in an almost unassailable position if they continue to have the sympathy of Russia and providing they have ammunition.

It is not too much to say that the future of Europe depends very largely upon the Turkish supply of ammunition. Wherever it is that they get it—whether from the French or Soviet ammunition factories—there has been no evident shortage thus far in their military operations.

Assuming they are well supplied, the

## RUMORS AND RUMINATIONS

BY HARRY CARR

THE most futile of all human yearnings is the wish to go back to a condition that has passed.

For instance, it would be an immense personal favor to me if some 750,000 people would get out and leave Los Angeles (town of 50,000 I knew back in the eighties, when there were no Ford's, had-mannered traffic policemen, people who want you to rest their sun-burned, antiseptic-looking, jazz orchestra, community theaters with punk amateur actors, preachers who want to censor motion pictures, hammer murderers, job slayers who quiver at columnar statues, mullet's clubs, cabarets with stupid-looking hours with big feet, radio concerts and agitated ladies who are worried about the culture of the masses.

I wish these and the superfluous about this city would get out; but they will not; therefore, I make the best of it.

All of which brings us to the case of Emerson Hough, the illustrious author of western novels and stories.

Mr. Hough is very indignant because the tourists who swarm into the national parks every summer have disturbed the serenity of the bears and have eaten the trout out of the lakes. He says, with an outraged gesture, that these people have spoiled all the pleasure that he found in the national parks when he had them to himself—him and the bears.

Well, really, Emerson . . . well, really, really.

POETS give entirely too much credit to nature.

Man is much more wonderful. For instance, in the film play "The Old Homestead" at Oranman's the other day I saw a hurricane that only blew in the houses of villains. Every villain's windows were blown in; the doors knocked down, his rods carved in about his ears and finally his body tumbled around all over the lot like one of those weeds you see in the autumn in the canyons.

And that's the way to have a wind-blown gum.

Save murder trials.

SPEAKING OF MOVIES.

Even the best of directors sometimes slip into curious errors. Frank Lloyd spotted one of the best program pictures I ever saw when he put just one bad subtitle into "The Sin Flood."

It is a story of some worldly people who hate each other who

THE WAR OF THE STREETS

BY HARRY BOWLING

Los Angeles has hung up another record—but not in the Hall of Fame.

Traffic accidents for the month scored a world-beater, being 25 per cent in excess of last year's best showing. Auto Club officials predict this city will pile up a grand annual total of 40,000 street casualties.

For the first ten months of 1932 the death list already reaches 244 and the war of the streets rages with unabated fury.

No longer is it necessary to part with good dollars to see speed demons compete on saucer tracks for kingly honors.

Any evening of the week on West Ninth and Seventh streets, along Alvarado, down Vermont avenue or cutting the curves of Sunset Boulevard monsters of steel and gasoline in riotous ranks eat up the miles of polished pavement, annihilate time and space (and incidentally anything else that comes within range of their Gorgon eyes).

Old inhabitants and taxpayers admit this. They stand at attention on the sidewalks and let the cars flash by. But for the benefit of the newcomer and the tourist the city should post notices on the streets most favored by the conquering speed fiends to warn the innocent that they venture into the line of battle at their own peril.

It isn't kind to strange family men, guests of the city, to let them risk life and limb through not knowing that certain main thoroughfares are in the possession of the invading motor.

Once in a while the haughty conqueror climbs the curb and picks off a victim from the supposed safety zone of the sidewalk. But this violation of the laws of neutrality is not encouraged. The practice, moreover, leads to the unnecessary destruction of an offensive weapon.

Anyhow, there are so many rash spirits seeking voluntary slaughter to no knightly accolade should have to hunt the quarry behind the trenches.

## DENY POLITICS

THE WATCHMAN

It may get into the hands of the enemy on the day of the election. In view of the fact that the enemy is in the hands of the enemy on the day of the election.

Tommy Lee Woolwine, who is in the hands of the enemy on the day of the election.

But it does not mean that the enemy is in the hands of the enemy on the day of the election.

The local press is in the hands of the enemy on the day of the election.

## POWER ACT TO FALL HEAVILY

Decisive Defeat Shown by  
League's Poll

Southern California Will  
Show Law Under

Country Cities Will Give  
Huge Adverse Vote

Southern California will vote overwhelmingly against the \$500,000,000 Water and Power Act. That much is certain. A poll just completed by the People's Economy League, which has been leading the fight against the measure, shows Amendment No. 13 defeated in every community in this end of the State. It is only in Northern California, and some sections of the central portion of the State that there is doubt of the vote. Southern California's big majority should offset any possible deficiencies in the vote in other parts of the State.

In a final message sent yesterday to campaign directors in cities and villages in Southern California, the People's Economy League urged that every effort be made to get out a full vote in order that the measure may be so decisively defeated as to discourage its adherents from ever again making a similar proposal to the citizens of California.

Unbiased canvass of 414 scattered Los Angeles precincts made by the league shows \$2,303 votes against the act and but 3553 votes for it; a ratio of 13 to 1. Voters who declared that they had not yet made up their minds number 11,921. Assuming that this number half vote for the act and half against it, the totals would be \$2,463 against the act and 13,413 for it, a ratio of 5.4 to 1.

Registration in the 414 precincts is 141,519 and 76,992 votes were canvassed, or 54 per cent of the total. The precincts were selected with regard to their representative values. That is, included in the 414 are precincts where live working men, millionaires, home owners, apartment-house dwellers, foreign-born citizens, native stock, and all of the other numerous classes into which the vote is divided.

Now as to the country vote: Telegrams to campaign directors of the hundred odd People's Economy Leagues in Southern California were sent out Saturday asking for an unbiased opinion as to the actual vote in their precincts. Replies began coming in yesterday. Below are some representative ones:

Whittier—Ninety-five per cent of Whittier voters will oppose water and power bill.—A. M. Channess.  
Hartford—Ninety per cent of voters cast in Kings county will be against the act.—R. E. Raliback.  
Hilmar—Ninety per cent of voters cast in Kings county will be against the act.—C. B. Griffith.

STONG OPPOSITION  
Oxnard—Act will be defeated in this county 8 to 1. Rudolph Jack.  
Santa Ana—Street canvass ten minutes shows 45 against, 5 for, 50 neutral. Freeman H. Goodblood.  
Alhambra—Poll in my precinct, No. 2, shows 4 for and 118 against. Seems to be overwhelming sentiment in Alhambra against measure. William Grimes.

San Bernardino—Sentiment in this county more 5 to 1 against measure. Majority depends on what percentage of vote turn out. Estimate more than 4000 majority against.—A. G. Kendall.  
Foothill—In my opinion the act will be beaten 4 to 1.—Val D. Knapp.  
Fullerton—Sentiment against the Water and Power Act is exceedingly strong in this section. Indications are that it will be overwhelmingly defeated in this city and Southern Orange county. It has support of only a few tenants here and they are hard to find.—W. F. Coulter.

Monrovia—Monrovia and Duarte will vote 4 to 1 against bill. Using every effort to poll large vote. A. G. Weaving.  
Vernalis—Act will be beaten 4 to 1 in this county.—Joseph R. Barbo.  
Ventura: My best judgment is act will be beaten 5 to 1 in this county.—A. L. Hobson.  
Santa Paula: Act beaten in Ventura county 4 to 1.—D. W. Mott.

Redlands: Believe act will be defeated in this vicinity 5 to 1.—Pacific Southwest Trust and Savings Bank, Dr. M. J. Sweeney.  
Redondo Beach: Act will receive adverse vote of from 5 to 1 to 1 to 1. Two thousand registered. Vote will run about 60 per cent of registration.—Hugh R. Pomeroy.  
Lancaster: Conservative estimate Antelope Valley vote 3 to 1 against act.—O. B. Bullock.  
Lemoore: Act will be beaten in Kings county by 3-to-1 vote.—Oscar L. Odale.

Porterville: Vote here will run 75 to 80 per cent against Water and Power Act, maybe more.—Oster R. Tout.  
Exeter: Difficult to estimate returns, but believe this community will go 2 to 1 against act.—First National Bank of Exeter.  
Tulare: Think act will be beaten in this vicinity 3 to 1.—A. C. Rosebush.  
Ingewood: Believe bill will be beaten by 2 to 1.—W. G. Brown.  
Visalia: The county will be defeated by more than 2 to 1.—Charles Andrews.

Anaheim: Quite evident that act will be defeated in this part of Orange county by at least 2 to 1.—Leonard Evans.  
Long Beach: Two to one against act. Conservative estimate of vote 18,000.—R. F. Tucker.  
Pasadena: Think Pasadena can be depended upon to give a majority 3000 to 4000 against act. Large silent vote makes accurate guess difficult. Big percentage own homes, hence are taxpayers, and should vote wisely against the un-American and Socialistic measure.—W. H. Archdeacon.  
Visalia: Act will be beaten, badly in Visalia.—T. D. Switzer.  
Santa Barbara: At combined

## EXAMINER ON WOOLWINE

What Morning Paper Thought of Democratic Candidate, and its Present Views on Same Man.

Here is what William Randolph Hearst's Los Angeles Examiner thought of Thomas Lee Woolwine in 1914 and today, without assigning any reason for the change in opinion.

"The Examiner four years ago opposed Mr. Woolwine's election to the District Attorneyship because of his unfitness."

"The Examiner believes, with the law-abiding citizens of the county that Mr. Woolwine as the chief peace officer of the county is an impossibility."

"Here again some of the reasons why no one with regard for the sacredness of life and a respect for law and order, and desire for even-handed justice can vote for Mr. Woolwine."

"On Dec. 11, 1909, Thomas Lee Woolwine struck Attorney Ladore Dockweiler in the face during a court session in the Superior court, and put his hand on the head of the judge, and drew a knife from his pocket."

"Woolwine in September, 1913, at 10:30 at night, entered the house of Fielding J. Eilson, assisted still by a woman, and knocked him down."

"These are authenticated cases." "The judgment of the electors of Los Angeles county was sound four years ago when Mr. Woolwine was defeated. It will prove meeting seven women's clubs yesterday, sent word strongly against act. Meeting yesterday night only one person favored act.—P. D. Jackson.

SEES HUGE MAJORITY  
Pomona: Pomona will defeat act with 1000 majority.—Mark H. Potter.  
Ventura: Act will be defeated in Ventura county by 3500 votes.—David J. Rees.  
Bakersfield: Kern county will vote against the act.—C. A. Barlow.

Hermosa Beach: City will vote practically solid against act.—H. Kibben.  
Colton: Act will be beaten by big majority in this locality.—Peter Dominguez.  
Balahe: Sixty per cent or more against act.—E. Curtis Clark.  
San Fernando: Community will vote 40 to 49 against act.—L. Q. Bronson.

PASADENA IS AGAINST  
POWER ACT  
Measure to be Defeated by Strong Majority in City, Forecast

By a "Times" Staff Correspondent  
PASADENA, Nov. 5.—This city will return a strong majority against the \$500,000,000 Water and Power Act, in the opinion of E. L. Pauley, chairman of the People's Economy League for Pasadena, who has been active in the fight against the measure.

"We have worked quietly for the most part," said Mr. Pauley, "but I believe we have succeeded in showing the true nature of the measure to the public, and that it will receive a minimum of support here. The people of Pasadena do not want such enormous public debt, and they will vote against the act."

The climax of our campaign was the Merchants' Association dinner, with a debate between Francis J. Heney and Leslie R. Heney, who has been active in the fight against the measure.

Mr. Heney kept away from the provisions of the proposed bill for any such thing, but does provide for the creating of an enormous political machine with tremendous patronage, and Mr. Heney was unable to answer him. When a local speaker gets the best of an experienced, rough and tumble debater like Francis J. Heney, it certainly proves that the best that can be said for the latter's cause is very weak.

The league has arranged several neighborhood meetings during the campaign, in which speakers have pointed out the points of the proposed measure. These have been well attended, Mr. Pauley said.

Mr. Pauley is president of the Merchants' Association here.

Fantasy Will be Presented for Hospital

## HIGHER PAY URGED FOR ATTORNEY

Many Organizations Declare City Lawyer Should Get Gain Called For

A large number of organizations have endorsed city proposition No. 5-A on the ballot at next Tuesday's election, which would increase the salary of the City Attorney from \$4000 to \$7000 a year.

It is the view of these organizations who have studied the situation that Los Angeles cannot afford to pay such a meager salary to this important official, who must be the legal guide for all departments of the city and must defend the city's interests in the courts against some of the most able lawyers in the State.

A check of the eastern cities shows none of the size of Los Angeles paying such a small salary, even the smaller communities in our own county, such as Long Beach and Pasadena, are paying much more than Los Angeles, the latter \$6 per cent more. No objection has been announced by any individual or organization in the city.

Among the organizations which have approved of this just measure, together with some of the leading lawyers, judges and business men, are the following:

Chamber of Commerce, Central Labor Council, Investment Bankers' Association, Motor Car Dealers' Association, Economy League, Bond Buyers' Association, Association for Betterment of Public Service, Realty Board, Merchants' Association, Business Men's Co-operative Association, Lincoln Heights Board of Trade, every member of Board of Trustees of Los Angeles Bar Association, and Founders' and Employers' Association.

J. L. R. Hewitt, Charles S. Burrell, John W. Summerfield and John W. Sherk.  
William W. Mines, W. J. Ford, Joseph Scott, Dave G. Smith, Frank James, H. W. O'Malley, Norman Ball, William M. Garland, W. M. Bowen, Dr. G. A. Bragel, Frank Dominguez, William I. Trauer, Walter K. Tuller, Griffith Jones and many others.

## LEAGUE WILL HOLD VICTORY LUNCHEON

The Young Men's Republican League of Los Angeles County announces a "Victory Luncheon" to be held at the Union League Club, Wednesday noon.

Latest hour election reports by radio, telephone and telegraph will feature the luncheon. Republican party workers from throughout the county will be present. Candidates endorsed by the league will make short talks.

Why  
are the powerful  
Banks and Trust  
Houses spending  
\$150,000  
advertising to defeat  
proposition No. 24?

WHY, Until Just Recently, Were They Masquerading Under the Name of "Public Rights Committee"? Why Has One Banker of This City Alone Asserted That He Will Spend \$50,000 to Defeat This Bill?

BECAUSE—If Proposition 24 is approved by the people, Trust Companies can no longer make a practice of preparing wills which give themselves absolute control over large estates for long periods of time.

This law will prevent them from inserting in wills clauses granting them enormous powers of arbitrary management and the opportunity to reap a rich harvest at the expense of widows and children.

Do you know that these Trust Companies recommend a so-called "standard" form of "will" which allows the Trust Company "to sell, or to exchange with, the trust estate its own private securities or buy, for its own use any securities from the trust?"

Another clause permits them to "invest" "the whole or any part of the principal sum of money of the trust estate in any property, whether or not the same may be permissible by law, for the investment of trust funds."

Another clause provides that the Trust Company may handle the trust property "at the risk of the trust estate and not at the risk of the said trustee."

A particularly vicious clause disinherits the widow and children if they attempt to fight the Trust Companies by seeking justice in the courts.

If a Trust Company desires to speculate with trust funds, or manipulate the estate for its own profit, no better provisions could possibly be framed by the most astute attorney to effectuate such wicked purposes.

—VOTE "YES" ON PROPOSITION 24!—  
Proposition 24 expressly recognizes the right of any person to prepare any ordinary conveyance or business agreement, and give advice incidental thereto. Any person may draw a will, deed, lease, note, or any legal instrument or contract either for himself or his neighbor. The law, however, does prohibit corporations and unlicensed individuals from making it a "business to practice law."

Similar laws are now in force in twenty-four states—including New York, Illinois, Massachusetts, Missouri and Washington—where such legislation has met with unqualified approval of banks, realtors and business men in general, and is endorsed in principle by the AMERICAN BANKERS' ASSOCIATION ITSELF.

—VOTE "YES" ON PROPOSITION 24!—  
"Beware of the Greeks when they come bearing gifts!" Do not be fooled by self-serving falsehoods.  
Banks willing to confine themselves to their legitimate functions are not fighting this law.  
Their strength, however, consists in getting control of other people's money.  
One of their methods of doing this is by inducing their customers to create trusts, particularly in wills and the estates of deceased persons, in their favor.

In this way, they get their grasp upon the great fortunes of the state, and are building up for themselves a tremendous money trust that is a menace to every citizen.  
Unchecked, they will soon control all business in the state; or at least be able to dictate and dominate its transaction!  
Nothing more dangerous to the average man or woman could be conceived—a financial oligarchy and a financial tyranny.

# Fantasy Will be Presented for Hospital

Under the auspices of the Illinois State Society, a group of nearly 100 young people will present tonight at the Gamut Club, for the benefit of the Orthopaedic Hospital, "The Magic Mirror," a musical fairy fantasy.

The production, in rehearsal for three months and the performance at the music triumph which is directed by Kaye Zell, will be the principal of the Therapist Musical School.

Miss Irene Parsons is the fairy queen and is a well-known singer and dancer. Her husband, who has heard to what advantage in the "Fairy Pipers."

The Queen of Daffydownville will be played by Ruth Edwards. The good girl of the village will be portrayed by Betty Jean.

Stopping at second-class hotels and eating at second-class food, did you tell the unsuspecting voter, they were doing it on first-class money donated by first-class public utilities?

"Mr. Richardson has published a book, called "The Road to Victory" campaign on his own modest resources, without help, and in his own campaign, he has enlisted a very large number of people, and he has stopped in hotels of modest character, and he has refused to plough folks on an economic basis. He drove his own car at his own expense, and managed his own campaign."

The voters of California have a right to expect a plain, honest, industrious man, a plain man, who understands what economic conditions are, and who has lived his life has courageously followed the course of action his conscience dictated, and he has won a 200,000 majority for Richardson tomorrow."

## Camp Inspection

The annual inspection of W. S. Rosecrans Camp, Sons of Veterans, will be held at 10 o'clock tonight at Patriotic Hall, 1516 South Figueroa street.

## NEW OIL REGION IS OPENED UP

Many Leases Taken on Land  
North of Bakersfield

Geologists Say Prospects in  
Territory Good

Many Wells Are Abandoned  
in Past Ten Months

(EXCLUSIVE DISPATCH)  
BAKERSFIELD, Nov. 5.—Leases  
of oil lands aggregating 40,000  
acres have recently been made in  
territory about twenty miles north

of Bakersfield and within a radius  
of seven miles from Wasco, ac-  
cording to agents for companies  
which are acquiring the land for  
future development.

Companies which are obtaining  
land in the district include the  
General Petroleum, Standard Oil  
of California, Union, Pan-Ameri-  
can, Pacific and several others.

No actual drilling is under way,  
although several rigs have been  
ordered and one is already on the  
ground, it is said.

The activity in this new region  
is based largely on the reports of  
geologists, who believe that the  
chances of striking oil there is most  
favorable. "The caliber of the com-  
panies securing leases makes the  
assurance that the territory is not  
merely 'wildcat' but will probably  
be the means of extending the pres-  
ent oil fields several miles north-  
ward."

PREPARE TO DRILL  
The Blair Oil & Refining Com-

pany is getting ready to continue  
drilling its No. 1 well on section  
23, 22-23 within a few days. The  
well has been standing cemented  
for several weeks and tests have  
shown that the water is entirely  
shut off.

According to the officials of the  
company, the producing sand will  
be attained within the next 200  
feet as the drill is about at the  
depth at which the Standard, on  
adjoining property, has some good  
producing wells.

The Blair Oil & Refining Com-  
pany lease was acquired from Or-  
loff and Samuels.

Of the twenty-eight new oil wells  
started in California during the  
past week, five are located in Kern  
county fields, four in the Midway  
and one in the Elk Hills. Two  
deepening jobs were started and  
seven tests for water shut off were  
reported.

According to a report of State  
Oil and Gas Supervisor R. E. Col-  
ton, there has been a total of 1167  
oil wells started in California this  
year, as compared with 1113 the  
same date last year. Redrilling  
jobs have increased a total of  
ninety over the same period last  
year, the number reported to date  
being 481. Tests for water shut-  
off this year amount to 1426,  
against 1243 for the same period a  
year ago.

WELLS ABANDONED  
More wells were abandoned for  
the first ten months of the year  
than for that period last year, the  
respective numbers being 288 and  
184.

The Pacific Oil Company started  
two new wells last week, one lo-  
cated on section 15, 22-24, in the  
Midway and the other on section  
24, 22-24, in the Elk Hills.

The Midland Oilfields Company,  
Ld., is getting into its develop-  
ment stage and is starting its sec-  
ond well on section 24, 22-23, in  
the Midway district.

The Fresno-Taft Oil Company,  
which is one of the recently or-  
ganized companies to start devel-  
opment in the Midway district  
near Taft, has expended in its No.  
1 well on section 33, 22-23, and is  
expectantly watching for what the  
drill may tap in the way of pro-  
duction.

The Chandler-Canfield Midway  
Oil Company has a new well, a new  
well on section 26, a new well on  
section 26, a new well on section 26,  
a new well on section 26.

BREAK GROUND  
The Big Four Oil Syndicate, re-  
cently organized to develop pros-  
pective oil land in the vicinity of  
Tulare Lake, has broken ground for  
its first well. The well is located in  
Tulare county and is one of a num-  
ber of prospect holes being drilled  
by concerns who have been  
prompted to bore for "liquid  
gold" in the farming districts ad-  
jacent to Tulare Lake.

## TO REOPEN OLD MINE IN ARIZONA

Local Engineers Acquire  
Vulture Property; Gold is  
Sought

That the old Vulture mine in  
Arizona is to be reopened and  
operated by a firm of local min-  
ing engineers, was announced  
yesterday.

It is expected that the Vulture  
will again attain a place on the list  
of Arizona's big gold producers.

Published reports credit the pro-  
duction of the Vulture mine from  
1884 to 1914 with \$15,000,000 in  
gold. Examination of the mine  
shows that the mine has not been  
worked out by any means, and  
above the present 600-foot level  
there is available in the old work-  
ings some 150,000 tons of ore.

Fifty feet back in the foot-  
wall vein and dipping parallel to  
the main ore body is a quartz vein  
containing silver and radiating in  
places sulphide. Sampling by the  
Humboldt Smelter engineers, aver-  
aged \$25 per ton. There is also  
250,000 tons of mill tailings of  
commercial value.

Vein Struck  
in Arizona  
Copper Mine

(EXCLUSIVE DISPATCH)  
JEROME (ARIZ.) Nov. 5.—Grati-  
tifying results are being obtained at  
the Shea mine, now controlled by  
a group of Calumet & Arizona di-  
rectors. Discoveries made there  
within the last few days will place  
the Shea in the shipping class at  
once.

A raise from the 500-foot level  
has entered the big vein of tetra-  
hedrite, or gray copper, that first  
drew the attention of the C. & A.  
people to the Shea when it was en-  
countered on the 300-foot level.

There has been no time for accu-  
rate determination, but apparently  
the vein is richer and stronger than  
above.

The shaft is now nearly 1100  
feet deep and from the 500-foot  
level has been in ore of milling  
grade. With every round of shots  
the values improve.

On the 1000-foot level a copper-  
bearing vein, followed by a  
westerly drift, suddenly disap-  
peared and the drift entered very  
loose, black schist with much iron  
and a little copper. Exploration is  
being continued in the schist belt  
and also along the contact in search  
of the faulted vein.

The Shea ore will probably go to  
the Humboldt smelter, where pro-  
duction is now averaging around  
1,000,000 pounds of copper a  
month. About 400 tons of ore is  
crushed daily. It comes from about  
fifty mines, but the smelter's prin-  
cipal source of ore supply contin-  
ues to be the Bluebell.

## New Drilling is Started in Mexican Field

(EXCLUSIVE DISPATCH)  
TUXPAM (MEX.) Nov. 5.—  
Much importance is attached by  
oil operators in Mexico to the  
recent action of President Obregon  
in issuing a decree giving the  
Huasteca Petroleum Company,  
subsidiary of the Mexican Pe-  
troleum Company, physical pos-  
session of the Juan Felipe ranch  
which embraces 19,000 acres. This  
action was followed by the com-  
pany starting a drilling program  
upon the property.

The drilling permit which the  
Mexican Agula Oil Com-  
pany held upon the ranch was  
automatically revoked by the de-  
cree of President Obregon. The  
fact that the San Felipe tract of  
land is in territory that is prac-  
tically proved oil-bearing gives it  
great potential value, it is said.

ARIZONA MINE BREAKS  
SOIL FOR NEW PLANT

HUGE CONCENTRATOR UNIT  
TO BE ERECTED SOON,  
SAY OFFICERS

(EXCLUSIVE DISPATCH)  
PHOENIX (ARIZ.) Nov. 5.—The  
New Cornelia Mining Company is  
breaking ground at Ajo for a new  
concentrator unit of 6000 tons,  
which will double the capacity of  
the present concentrator, according  
to an announcement from the Ariz-  
ona State Tax Commission office.

The announcement was made  
following a visit of mine officials to  
the commission. They said that the  
New Cornelia mine is employing 600  
men and expected to increase this  
force by 800 soon.

Some valuable experiments in  
copper manufacture have been con-  
cluded with success by the New  
Cornelia, and Arizona officials of  
the mine are awaiting the decision  
of the board of directors to proceed  
with the commercial manufacture  
of these products.

One of the articles to be manu-  
factured commercially is copper  
ribbon for automobile radiators.  
The mine officers say that this is  
the only copper manufactured  
which can be soldered and that  
use of the copper in radiators will  
give a 30 per cent increase in  
efficiency.

SHIPMENTS GROW  
El Paso Smelter to Get More Ore  
From Mexico

(EXCLUSIVE DISPATCH)  
WARREN (ARIZ.) Nov. 5.—Ship-  
ments of Ahumada, Braden ore  
from Northern Chihuahua mines  
to the El Paso smelter probably  
will be increased to 10,000 or 12,  
000 tons a month this fall.

The shipper's plan in August  
with a partial consignment of  
twenty cars. They are continuing  
regularly at the present time  
at the rate of about 6000 tons a  
month.

SEE THE DOBLE STEAM CAR  
SEE THE DOBLE STEAM CAR  
SEE THE DOBLE STEAM CAR

Thousands saw the  
DOBLE STEAM CAR  
Demonstrated Last Saturday.

Today You May See It  
at 828 South Broadway

Those who have seen this amazing motor car in action will  
be keen to see it again, and the thousands who have heard of this  
sensational motor car and have not seen it, may look forward to  
an interesting experience when they actually see the car and have  
its salient features explained.

ABNER DOBLE

is keenly appreciative of the manner in which his master motor  
creation has been received by people throughout California and  
from all parts of the world. The car's reception has been a strik-  
ing and fitting tribute to a genius whose accomplishments stand  
without a parallel in automotive history.

But infinitely MORE important is the fact that so many peo-  
ple are quick to realize the huge profit possibilities of an invest-  
ment in a company manufacturing a motor car of such amazing  
simplicity and performance. The stock of this company is get-  
ting a reception just as enthusiastic as the reception of the car it-  
self. The clamor for Doble Steam cars is already widespread, in-  
sistent and of great volume. Inquiries have been received from  
all over America.

The amount of Doble stock I have for sale is limited. The  
profit possibilities are large and are keenly appreciated by fore-  
sighted investors. If you seek profit—if you are anxious to add  
to your income—if you believe in the future of the motor car in-  
dustry and if you have the courage to back your own judgment  
and the judgment of able engineers, come to the Doble Car show-  
room NOW—Today!—And come prepared to buy Doble stock  
at \$12.50 a share.

If you cannot get to the showroom to see the car and buy  
Doble stock, write for full information about the car and the  
profit possibilities of an investment.

SHOWROOM OPEN FROM 10 A. M. to 10 P. M.  
CLOSED SUNDAY.

## The Standard Textile Products Company

First Mortgage 6½% Sinking Fund  
Twenty-Year Gold Bonds

Due September 1, 1922. Due September 1, 1942. Interest payable March 1 and September 1. Coupon bonds  
in \$1,000, \$500 and \$100 denominations. Registrable as to principal only and interchangeable as to denomi-  
nation. Redeemable at the option of the Company in whole or in part on any interest date up to and  
including September 1, 1942, at 110 and interest, this premium decreasing at the rate of 1% per year  
to maturity. Principal and interest payable at Bank of America, New York, Trust Co., or at  
the option of the holders at The Merchants Loan and Trust Company, Chicago.  
Authorized \$10,000,000. Outstanding \$6,000,000.

Interest Payable Without Deduction for Normal Federal Income Tax Not to Exceed 2%  
Pennsylvania Four Mill tax, Connecticut Four Mill tax, Massachusetts six percent Income Tax and the present  
Maryland Securities Tax refundable to holders resident in those States.

The following information is summarized by Mr. Alvin Hunsicker, 1st Vice-President, from his letter  
to us and from auditors' and appraisers' reports, and other reliable sources:

HISTORY: The Standard Textile Products  
Company, formerly Standard Oil Cloth Com-  
pany, was incorporated under the laws of the  
State of Ohio in 1914.

PRODUCTS: The Standard Textile Pro-  
ducts Company is the largest producer of light  
weight cloth in the world. Its products  
include SANITAS, a washable wall covering;  
MERITAS cloth and MERITAS Leather  
Cloth, commonly spoken of as "imitation  
leather."

SECURITY: These bonds are secured by a  
direct first mortgage upon all real estate,  
plants and equipment of the Company, in-  
cluding the plants at Montrose, New York;  
Youngstown and Akron, Ohio; Athens, New  
Jersey; Rock Island, Illinois, and Columbus,  
Georgia.

ASSETS: The depreciated sound value as  
of September 30, 1922, of the properties cov-  
ered directly by this mortgage or through the  
deposit of securities of subsidiary companies is  
\$14,239,299.

As of September 30, 1922, after giving effect  
to this financing, the combined balance sheet

Bonds are offered for delivery when, as and if issued and received by us and approved by our Counsel. It is  
expected that Temporary Bonds or Interim Receipts of Bank of America, New York,  
will be ready for delivery about December 1, 1922.

PRICE: 100 and Interest, to Yield 6 1-2%
